PROFILE

IT graduate specializing in GHL automation and CRM systems. Hands-on experience building multi-workflow automation, pipeline management, funnel pages, and email sequences across GoHighLevel and Zoho CRM. Comfortable working with tools like Zapier, Jotform, and ClickFunnels to build end-to-end systems. AI-driven worker — regularly uses Claude, ChatGPT, and Gemini to troubleshoot, optimize, and accelerate workflows. Currently seeking remote roles as a GHL/CRM Automation Specialist or Tech VA.

PROFESSIONAL EXPERIENCE

02/2025 – 06/2025 Bacoor, Cavite	Front End Web Developer Internship <i>Monad Solutions. Inc</i> - Converted Figma designs into responsive UIs using HTML, CSS, TypeScript, React, and Tailwind CSS. - Collaborated with the team via Git for version control and Jira for task management.
11/2025 – 02/2026 Paranaque City, Philippines	Junior Software Engineer <i>Barbizon Everyday Incorporation</i> - Built an internal SKU Request System used across two companies with 20–25 combined templates. - System captures SKU codes, queries a database, and auto-populates the correct template based on user selection — replacing a fully manual process.
Present Remote	Freelance CRM & Automation Specialist <i>Self-employed</i> - Built three GoHighLevel sub-accounts from scratch as a self-initiated portfolio, including pipeline automation and Zapier/Google Sheets integration - Set up Zoho CRM pipelines, custom fields, and lead segmentation for an AI coaching company client - Created custom HTML email templates and automated workflows in Zoho CRM and Zoho Campaigns
