

GERBINGUIO M. VICTORINO

CRM & Marketing Automation Specialist | GoHighLevel · Zoho · Zapier · n8n

gerbinguio@gmail.com · 09940401002 · Laguna, Philippines · LinkedIn · Portfolio (case studies and screenshots)

PROFILE

CRM & Marketing Automation Specialist with hands-on experience designing GoHighLevel and Zoho CRM systems, lead nurturing workflows, appointment booking automations, and marketing funnels. Leverages AI tools including ChatGPT, Claude, Gemini, and Claude Code to accelerate troubleshooting, workflow development, and automation implementation. Seeking remote CRM Automation, Marketing Operations, or Technical VA opportunities.

KEY ACHIEVEMENTS

- Built 15+ automated workflows and 5+ custom funnels across GoHighLevel subaccounts, covering pipelines and lead nurturing.
- Built 13 Zoho CRM workflow rules and 8+ Zoho Flow automations, connecting 5 website forms directly into a CRM tracking 600+ leads.
- Designed and sent 10–15 branded email campaigns via Zoho Campaigns, including a weekly executive newsletter.
- Connected WordPress and Google Form-based lead sources directly into CRM systems for zero-touch lead capture.

PROFESSIONAL EXPERIENCE

GoHighLevel Automation Specialist (Freelance)

June 2025 – Present

Remote

Tech Stack: GoHighLevel, Zapier, Jotform, ClickFunnels, ActiveCampaign

- Managed multiple GoHighLevel subaccounts, building email sequences, pipeline automations, and lead nurturing systems across client and personal projects.
- Edited and rebuilt 5+ funnels and connected 5+ lead capture forms (including Jotform) to improve user experience and drive engagement.
- Built 15+ automated workflows using triggers, tags, and pipeline stages — supporting lead capture, nurturing, and follow-up automation across client projects.
- Built custom-branded HTML email templates that rendered consistently across email clients, keeping client campaigns professional and on-brand.
- Integrated AI-assisted development tools into the GoHighLevel workflow to speed up automation builds and cut down debugging time.

Zoho CRM & Automation Specialist (Freelance)

April 2026 – Present

Remote

Tech Stack: Zoho CRM, Zoho Flow, Zoho Campaigns, Zoho Bookings, WordPress, Webhooks

- Architected and deployed a custom Zoho CRM system supporting 600+ tracked leads, automated lead status management, appointment scheduling, and email marketing workflows.
- Connected Zoho Bookings natively to the CRM, so every booked call auto-updates lead status and notifies the team — no booked call falls through the cracks.
- Designed a branded email system in Zoho Campaigns, sending 10–15 campaigns including a weekly executive newsletter, keeping the subscriber list clean despite a native platform sync limitation.
- Built 13 Zoho CRM workflow rules and multiple Zoho Flow automations (form-to-CRM sync, webhook updates, spreadsheet/document fetching), including a fully automated lead magnet pipeline.
- Connected 5 WordPress forms to the CRM, ensuring every website inquiry converts into a tracked lead automatically.

Front End Web Developer Internship

Feb 2025 – June 2025

Bacoor, Cavite

- Converted Figma designs into responsive UIs using HTML, CSS, TypeScript, React, and Tailwind CSS.
- Collaborated with the team via Git for version control and Jira for task management.

Junior Software Engineer

Nov 2025 – Feb 2026

Paranaque City, Philippines

- Built an internal SKU Request System used across two companies with 20–25 combined templates.
- System captures SKU codes, queries a database, and auto-populates the correct template based on user selection reducing manual template preparation and data entry.

SKILLS

CRM & Marketing Automation: GoHighLevel, Zoho CRM, Zoho Flow, Zoho Campaigns, Zoho Bookings, Zapier, n8n, ActiveCampaign

Integrations & Automation: APIs, Webhooks, Google Apps Script, Jotform

Funnels & Websites: ClickFunnels, WordPress, HTML, CSS, JavaScript, TypeScript, PHP, Vercel

AI Tools: Claude, Claude Code, Gemini, ChatGPT, Lovable

Tools: Git, Jira, Microsoft Office Suite, Notion, Trello, Canva

PROJECTS

Full case studies with screenshots: [gerbinguio-victorino-portfolio.vercel.app](#)

GHL Sub-Account Suite — Brew Mania, Brew Academy, Brewsmarinas — GoHighLevel, Jotform, Gemini AI, Google Sheets

- Built three full GHL sub-accounts covering event booking (Brew Mania), coaching enrollment (Brew Academy), and equipment rental (Brewsmarinas).
- Designed multi-stage pipelines, workflow automation, and Jotform-to-CRM lead capture across all three.
- Integrated Zapier and Gemini AI for automated reporting and feedback summarization (Brew Mania); built equipment tag tracking and rental lifecycle automation (Brewsmarinas).

Online Course Auto-Enrollment System — Zapier, Jotform, ClickFunnels, ActiveCampaign, Gmail

- Built an end-to-end automation that captures leads via Jotform, adds them to ClickFunnels, tags them in ActiveCampaign, and triggers a personalized email via Gmail upon enrollment.

OJT Daily Report Automation — Zapier, Gemini, Google Sheets, Google Docs

- Automated summarization of daily OJT Excel reports using Gemini AI, with output automatically generated as a formatted Google Docs report.

Telegram AI Chatbot — n8n, Telegram

- Built a personal AI chatbot via Telegram that processes messages and generates context-aware replies using n8n automation workflows.
