PROFILE

CRM & Marketing Automation Specialist with hands-on experience building and managing automation systems in GoHighLevel, Zoho CRM, Zapier, Stripe, and n8n. Experienced in CRM workflows, lead pipelines, booking and payment automation, AI voice workflows, webhooks, and API integrations, including AI voice agents, self-billing memberships, and booking systems with automatic deposits. Currently supporting multiple client accounts across CRM automation, funnels, and marketing operations. Seeking remote CRM Automation, Marketing Operations, or Technical VA roles.

KEY ACHIEVEMENTS

- Built 13 workflows covering 108 of 110 clinic services, ending manual, error-prone consent-form handling.
- Rebuilt all 110 services across 13 categories in GoHighLevel, moving a clinic off a closed platform with no API or export.
- Built a custom billing-date selector (Cloudflare Worker + Stripe API), letting members pay on their own payday.
- Deployed a GoHighLevel AI voice agent with 5 escalation workflows, ensuring every call is answered and logged 24/7.
- Connected 5 forms into a 600+ lead Zoho CRM with 13 workflow rules, turning every inquiry into a tracked lead.

PROFESSIONAL EXPERIENCE

GoHighLevel Specialist

Freelance, Direct Client | Jun 2025 – Present | Remote

UK aesthetics clinic + owner's coaching brand (current client since Aug 2026) · GoHighLevel, Stripe API, Cloudflare Workers, Zapier, Jotform, ClickFunnels, ActiveCampaign

- Automated new-member onboarding and billing-date locking, freeing the owner from manual signups and card chasing.
- Built a Day 0/3/7 payment-recovery sequence and a Day 30 win-back email, protecting membership revenue.
- Automated deposit and full-payment collection (Klarna/Clearpay) on ~87 services, eliminating manual chasing.
- Built 13 consent-form workflows for 108 of 110 treatments plus rebooking reminders, ending manual emails.
- Rebuilt a broken coaching funnel into a self-serve checkout and recovered its domain after a sub-account split.
- Built auto-tagging, delivery, and a targeted 4-point upsell for an online course that runs itself.

GoHighLevel Builder

Contract, Agency | Aug 2026 – Present | Remote

4 active clients, 5 sub-accounts · GoHighLevel, Voice AI, Inbound Webhooks, Square, SEO, Meta Pixel

- Built an AI voice agent that answers, qualifies, books, and transfers calls 24/7, logging clean data in the CRM.
- Built 5 escalation workflows plus AI-led follow-ups for missed calls and no-shows, preventing lost leads.
- Built inbound webhooks and fixed field mappings, ending manual data entry and backfilling 30 affected leads.
- Ran a QA pass that caught 3 live bugs before the client saw them, and added SEO/Open Graph to 9 pages plus Meta Pixel lead tracking.
- Built a 3-step ordering wizard with live pricing, turning quote-and-email orders into self-serve checkout.

Zoho CRM & Automation Specialist | SEO & AEO

Freelance | Apr 2026 – Present | Remote

Zoho CRM, Zoho Flow, Zoho Campaigns, Zoho Bookings, WordPress, SEO, AEO/GEO

- Architected a 600+ lead Zoho CRM around a 4-stage status flow with auto conversion and win-back.
- Connected Zoho Bookings to auto-update lead status, notify the team, and create pre-call tasks.
- Connected 5 WordPress forms to the CRM and cleaned up webhooks, field mappings, and spam.
- Built 13 workflow rules and 8+ Zoho Flow automations, including a fully automated lead magnet pipeline.
- Built a 4-pass editing pipeline verifying every article statistic against primary sources.
- Optimized articles for both Google and AI answer engines (keywords, meta titles and descriptions, FAQ sections built from real search behavior), making the firm's content discoverable in both.
- Sent 10–15 branded Zoho Campaigns emails, including a weekly newsletter, keeping the subscriber list clean.

Junior Software Engineer

Nov 2025 – Feb 2026 | Parañaque City, Philippines

HTML, CSS, TypeScript, shadcn/ui, MySQL, JSON

- Built an internal SKU Request System, replacing manual templates across two companies with one upload step.

Front End Web Developer Intern

Feb 2025 – Jun 2025 | Bacoar, Cavite

- Converted Figma designs into responsive UIs using React and Tailwind CSS, helping the team ship features.
- Fixed bugs and worked within Git code reviews and Jira task tracking, contributing to product quality.

PROJECTS

- **GHL Multi-Account Automation Suite:** Built three full sub-account environments with funnels, pipelines, automations, and a Zapier + Gemini AI sentiment-reporting workflow.
- **Online Course Enrollment Automation:** Built an end-to-end enrollment, tagging, and personalized welcome-email workflow with no manual enrollment required.
- **Telegram AI Assistant:** Built a context-aware Telegram assistant using n8n and AI integrations.
