Profile

A recent graduate with hands-on experience building websites using HTML, CSS, JavaScript, React, Tailwind, and TypeScript. Completed an internship where I worked on a real project using Git and Jira for collaboration. Comfortable working in a team, quick to learn, and open to exploring not just web development but also app development or any tech-related work that helps me grow.

Education

08/2021 – 06/2025	Bachelor of Science in Information Technology
Muntinlupa City, NCR	<i>Pamantasan ng Lungsod ng Muntinlupa</i>
	GWA : 1.60

San Pedro City, Laguna	<i>San Pedro College of Business Administration</i>
	With Honor

Projects

08/2025 – Present	Personal Portfolio - (https://gerbinguio-victorino-portfolio.vercel.app/) - Designed and developed a portfolio website to showcase projects and skills. - Built with HTML, CSS, TypeScript, Tailwind CSS, and shadcn/ui in VS Code, and deployed via Vercel. - Features responsive design, clean UI/UX, and project highlights.
02/2025 – Present	Internship Portfolio - (https://gerb-portfolio.vercel.app/) <i>Portfolio task for internship</i> - Developed a portfolio-style website during my internship to present sample works and skills. - Built with React.js, applying component-based development and reusable UI elements. - Deployed the project to a live environment, ensuring accessibility and functionality.
02/2025 – 06/2025	Helply-Web Website's UI/UX <i>Side project for Monad Solutions Internship</i> - Designed and implemented Helply-Web UI/UX, converting Figma prototypes into responsive web pages. - Developed using React.js, TypeScript, Tailwind CSS, and shadcn/ui for a modern and scalable front end. - Integrated APIs documented in Swagger to connect the frontend with backend services.
08/2024 – 12/2024	Sto. Nino Village Facility Booking System <i>Capstone Project</i> Developed Sto. Niño Village Facility Booking System, a web-based platform for managing facility reservations.

- Built with **HTML, CSS, Bootstrap, PHP, and SQL**, featuring a calendar interface to display facility availability.
- Implemented **admin features** for booking confirmation, cancellation, and overall system management

01/2023 – 05/2023

School Violation Tracking System

School Final Project

- Created **School Violation Tracking System**, a database-driven web app for monitoring and managing student violations.
- Developed with **HTML, CSS, Bootstrap, PHP, and SQL**, focusing on efficient database design and queries.
- Enabled students to view their violations and corresponding punishments, while **admins accessed real-time, categorized records** for monitoring and management.

Skills

Tools and Technology

- Microsoft Office Suite (Word, PowerPoint, Excel)
- Git, Jira, Vs Code

Programming

- HTML, CSS, JavaScript, TypeScript
- C++, C#, PHP

Frameworks and Libraries

- Tailwind, Bootstrap
- React.js

Databases

MySQL

Professional Experience

03/2023 – 07/2025

San Pedro City, Laguna

Service Crew

Golden Arches Philippines

- Rotated across all kitchen stations (grill, fryer, assembly, and preparation), ensuring efficiency and consistency in food quality.
- Maintained speed and accuracy during peak hours, meeting strict service time goals.
- Supported teammates by adapting to different roles, demonstrating flexibility and teamwork.
- Ensured cleanliness, food safety, and compliance with company standards in all work areas.
- Assisted in coordinating kitchen workflow during busy shifts to keep operations smooth.
- Balanced responsibilities as a working student, strengthening time management and discipline.

02/2025 – 06/2025

Bacoor, Cavite

Front End Web Developer Internship

Monad Solutions. Inc

- Built a website based on a given design using **HTML, CSS, JavaScript, React.js, Tailwind CSS, and TypeScript**.
- Collaborated with the development team through **Git for version control** and **Jira for task management**.
- Implemented responsive and user-friendly UI components that matched the project design specifications.
- Participated in code reviews and team discussions to improve overall project quality.
- Gained hands-on experience in agile development practices and real-world teamwork.
